

DHRUV MODI

Video Game and Full
Stack Developer

PROFILE

Video Game Developer, Full Stack Developer, and Pixel artist. I am enthusiastic about looking for alternate methods to solve a problem creatively yet efficiently.

I am passionate about video games and simulation software and think of them as the future of multimedia exchanges.

SKILLS

- Unity Game Engine
- Frontend Web Development
- Firebase Suite
- Flask and Data Science
- Ionic Framework
- Flutter

EXTRA-CURRICULAR ACTIVITIES

UCL

- Founded and Hosted 3 Seasons of an Inter-branch College Cricket League.
- The league was unique as it had its own web and android platforms for keeping track of scores, teams, fixtures, points table etc.

CODEFIESTA

- Organised a Intra-College Hackathon in collaboration with IEEE Computer Society for beginner developers with simplistic themes and mentors through the way.
- Developed an anti-cheating web platform for the conduction of aptitude test for pre-hackathon selection of candidates.
